Office of Skills Development

Catalog of Industry Recognized Credentials

In Act 1079 of 2019 the Office of Skills Development was legislatively enacted to develop a catalog of nationally recognized credentials that are widely adopted by the respective industries and related to the applicable programs of instruction at each high school, community college, or technical institute, or vocational-technical school.

This catalog this document is regularly updated as credentials gain or lose their value to the specific industry, program, or curriculum.

The Office of Skills Development is a Division of the Arkansas Department of Commerce.
